

### From the M6 / North

Take the A38M from Junction 6 towards the city centre. Stay on the A38 at the end of the A38M. Take the blue underpass (30MPH tunnel) staying in the left hand lane. Filter off at the tunnel exit then keep to your right hand side on exiting the filter. Follow the road through the traffic lights and up to the cophorne roundabout, part of which is under ground. Take the 2nd exit off the round about on to Broad Street. You'll see the ICC to the right and the Hyatt to your left. Continue along Broad Street past the Hyatt and take your next turning on your left on to Gas Street. We are around 300 yards down on the right hand side.

### From the M5 / South

Exit M5 at Junction 3 and follow the signs for Birmingham. Cross the roundabout taking the 2nd exit and continue under the underpass. Continue straight on for approximately 5 miles. You'll come to a major set of traffic lights with the Plough & Harrow hotel in front of you and to the left. Stay towards the right hand lane. As you approach the 5 ways roundabout, there is a right hand filter lane on to Broad Street. Take this filter. Go through the traffic lights, past Sainsbury's, staying to the right hand lane. Go through the pedestrian crossing and take your next available right (the road right next to the crossing is one way). After turning right, you have arrived on Gas Street. We are around 300 yards down on the right hand side.
